****Please see our website www.cryogam.com for most accurate and up-to-date donor list****

CryoGam has always completed Thalassemia, Tay Sachs, Sickle Cell, and Karyotype Screening on donors whose ethnic origin put them at a higher risk for these genetic diseases; however, we now screen all new donors for Cystic Fibrosis. As of 2017, we also blood karyotype all new donors.

**Donors who have completed Cystic Fibrosis Screening are denoted by Level 2 pricing below.
Donors who have had blood karyotype testing completed in addition to Level 2 screening are
denoted by Level 3 pricing below.**

For more information on the diseases and specific mutations screened for, please visit our Donor Screening webpage at:
<http://www.cryogam.com/donor-screening>

Please visit the Donor Sperm Pricing page for information on Level 1, Level 2, & Level 3 pricing.
